### Flutter Mobile Developer

Apr 2022 - Jul 2022

#### FocusOn Consultant

Bandung, Indonesia

Developed a retail app for Android using Flutter, designed to assist internal micro and small retail businesses in managing financial monitoring, consumer data, product inventory, and marketing activities. The app streamlined operations by providing tools for effective advertising and customer engagement, empowering small retailers to enhance business efficiency. Focused on delivering a user-friendly interface to ensure seamless adoption and usability for retail users.

### Flutter Mobile Developer

Dec 2021 - Mar 2022

#### DSH Tech Consultant

Bandung, Indonesia

Developed an E-Commerce app for Android and iOS, designed to support a startup company in facilitating third-party service transactions. Collaborated effectively in a team environment, utilizing Trello and Notion for streamlined project management. The app provided a seamless platform for buying and selling services, enhancing user engagement and operational efficiency. Focused on delivering a robust solution to meet the dynamic needs of service-based businesses.

### Flutter Mobile Developer

Feb 2021 - Jul 2021

#### Mediatama Consultant

Jakarta, Indonesia (Remote)

Developed a finance application for Android and iOS using Flutter, designed to assist BTN, a leading banking company, in monitoring internal financial operations. The app provided robust tools for tracking financial data, ensuring accuracy and efficiency in managing corporate finances. Focused on delivering a seamless user experience to support decision-making processes within the organization.

### Flutter Mobile Developer

Sep 2020 - Dec 2020

#### Gulf Casting Agency

Riyadh, Saudi Arabia (Remote)

Developed an Entrepreneur app for Android and iOS, designed for Gulf Agency Company to facilitate talent registration and discovery for show performances. Collaborated effectively in an Agile/Scrum environment, utilizing Trello for efficient project management. The app streamlined the process of connecting performers with opportunities, enhancing user engagement and operational efficiency. Focused on delivering a seamless platform to support talent scouting and performance management.
